AVENTURA LEADS THE WAY TO GO GREEN

Aventura, Florida...

The City of Aventura leads the way to Go Green with an invitation to residents and condo management to attend a Go Green Symposium on Thursday, January 28, 2010 at 7pm. Attendees will learn how the City of Aventura is going green in its operations while discovering ways to establish or enhance their own Go Green initiatives.

Presentations by local companies, such as FPL, Home Depot and Waste Management, will share information about recycling, water conservation, and energy saving tips. Condo management will gain insight for green building maintenance and energy-saving HVAC systems from presentations by Continental Group and Service America. The Go Green Symposium will be held in the Commission Chambers at the Aventura Government Center, 19200 West Country Club Drive.

The Symposium kicks off the 2010 Go Green Recognition Program for residential and commercial properties. Information about the program and applications will be made available. The Go Green Recognition Program is part of the City's Annual Arbor Day Celebration in April where the awards are presented to the winners.

Eric M. Soroka

City Manager
