

## Frequently Asked Questions

### Why did I get a violation?

A vehicle, *registered or leased to you*, was photographed by an automatic camera monitoring a traffic signal that is active upon vehicle movement after the light is red. Not stopping at a red light, flashing red light, malfunctioning traffic light or at a red arrow is a violation of Florida State Statutes §316.074(1) and §316.075(1)(c)1. This includes making a right turn on red in other than a careful and prudent manner. You may turn on right on red if the way is clear, unless there is a sign prohibiting this movement. You must proceed in a careful and prudent manner.

### Will I receive points on my driving record for this infraction?

No points are assessed and the violation cannot be used to raise your insurance rates.

### How much is the fine?

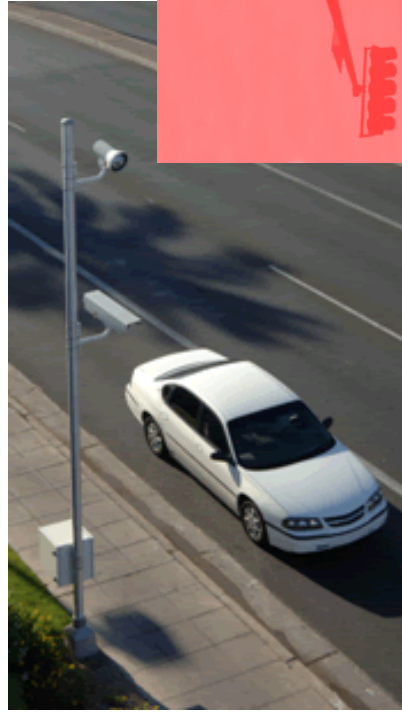

Violators will be assessed a \$158 penalty if paid within the first 30 days. After 30 days, a Uniform traffic citation will be issued with a fine of \$277.

### How do I know these violations are valid?

Images of your vehicle were captured and recorded by an Automated Intersection Safety System. You can review your images and video of the actual occurrence online. The images and video were reviewed by several qualified technicians and finally by the Aventura Police Department before the alleged infraction was affirmed and mailed to you as the registered owner. You have the option of submitting an Affidavit Establishing Exemption. Contesting the violation is done with the Clerk of Courts as with any traffic citation once a Uniform Traffic Citation is issued.

### How does the red-light camera work?

The system activates when motion is detected just prior to the stop bar AFTER the traffic signal has turned red. The cameras capture two images of an alleged violation, taken from the rear of the vehicle. The license plate image is a close-up from one of the images captured. Data, including the time, date and duration of the yellow & red lights is also recorded.

# Notice of Violation

Your Notice of Violation shows three still images on the right hand side of the page. The first is a close-up of your vehicle's license tag. The second image (Frame A) shows the vehicle at the white stop bar and the illuminated red light.

The third image (Frame B) shows the violator in the middle of the intersection with the red light illuminated.

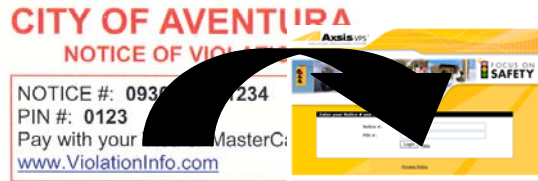

The top of the image shows the date, time, speed of the vehicle and the camera location.
