

The Florida Department of Transportation (FDOT) is conducting a planning study for corridor capacity improvements along State Road (SR) 9A/I-95 from SR 5/US 1 to just north of Ives Dairy Road, in Miami-Dade County. The study will develop and evaluate improvement concepts and perform planning-level operational evaluations. This study is the first step for future upgrades of this transportation facility. By defining the corridor's needs, the plan will help focus efforts on how best to enhance mobility throughout the area.

A Public Workshop will be conducted to offer the public an opportunity to participate in this study. The workshop will begin at 6 p.m. with a formal presentation beginning at 6:30 p.m. Graphic displays will be shown. FDOT representatives will be present to discuss the overall purpose and need of the study, explain concepts to improve operations along the corridor, and answer questions.

Wednesday, June 19, 2019
6 p.m. - 8 p.m.

Northeast Dade-Aventura Branch Library
2930 NE 199 Street/Aventura Boulevard
Aventura, FL 33180
