## ALWAYS PUT SAFETY FIRST

For your safety and the safety of others, please use caution when driving, walking or biking around any construction zone. Wearing a safety belt is the single most effective way to protect people and reduce fatalities in motor vehicle crashes. The Department takes steps to reduce construction effects, however you might experience the following around the work site:

- Travel lane closures and detours
- Increased dust and noise
- Workers and equipment moving around the area
- Allow extra time to reach your destination
- Obey all posted signs and speed limits
